Sirs:

I have worked for Phillips Petroleum For twenty years.

I am concerned - appalled - that the company is not offering
the Workforce Stabilization Plan to all employees affected by the
sale of the Woods Cross refinery.

It seems that Phillips changed the name of the plan just in time
to sell the facility.

It also is very unfair to offer the Workforce Stabilization
Plan to one group of employees, and not all employees at the
plant.

Please use your influence to see that all are treated alike.
